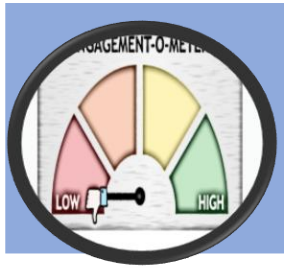
Smart Decide

Problem Statement

01

Transparency?

It’s often unclear how or why final decisions are made.



Engagement?

Many participants feel their input has little impact.

02

03

Accountability?

There’s no trusted record to verify the process or results

Our Solution

A **secure** and **interactive platform** for collective decision-making.

Uses **AI** to analyze opinions and generate clear summaries.

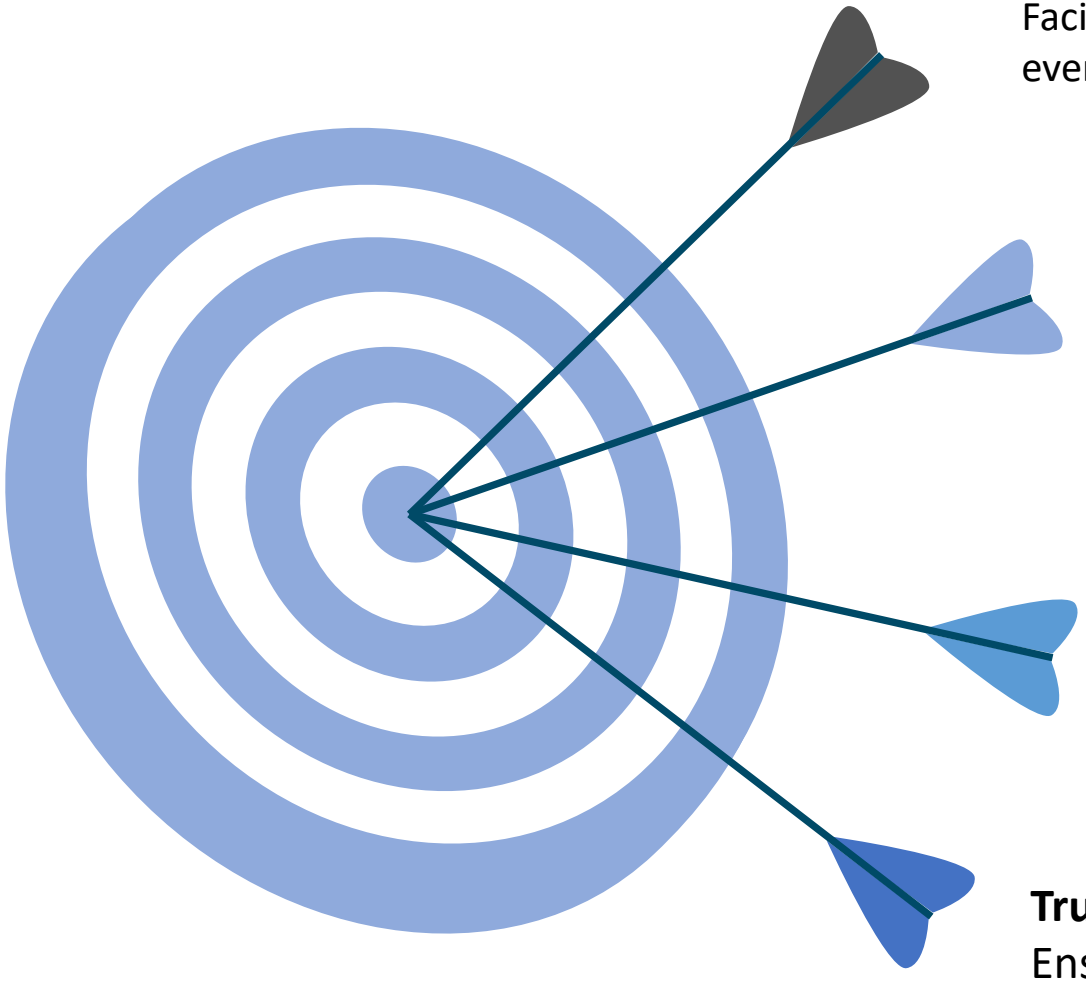
Stores results on the Hedera **blockchain** for transparency.

Our Solution

Ensures **equal participation** and fairness among users.

Provides a **smart dashboard** for real-time results and insigh

Objectives



Transparent & Inclusive Decision-Making
Facilitate group decisions in a way that is transparent, fair, and open to everyone.

Collaborative Discussion Spaces
Allow users to create or join interactive discussion sessions on any topic of interest.

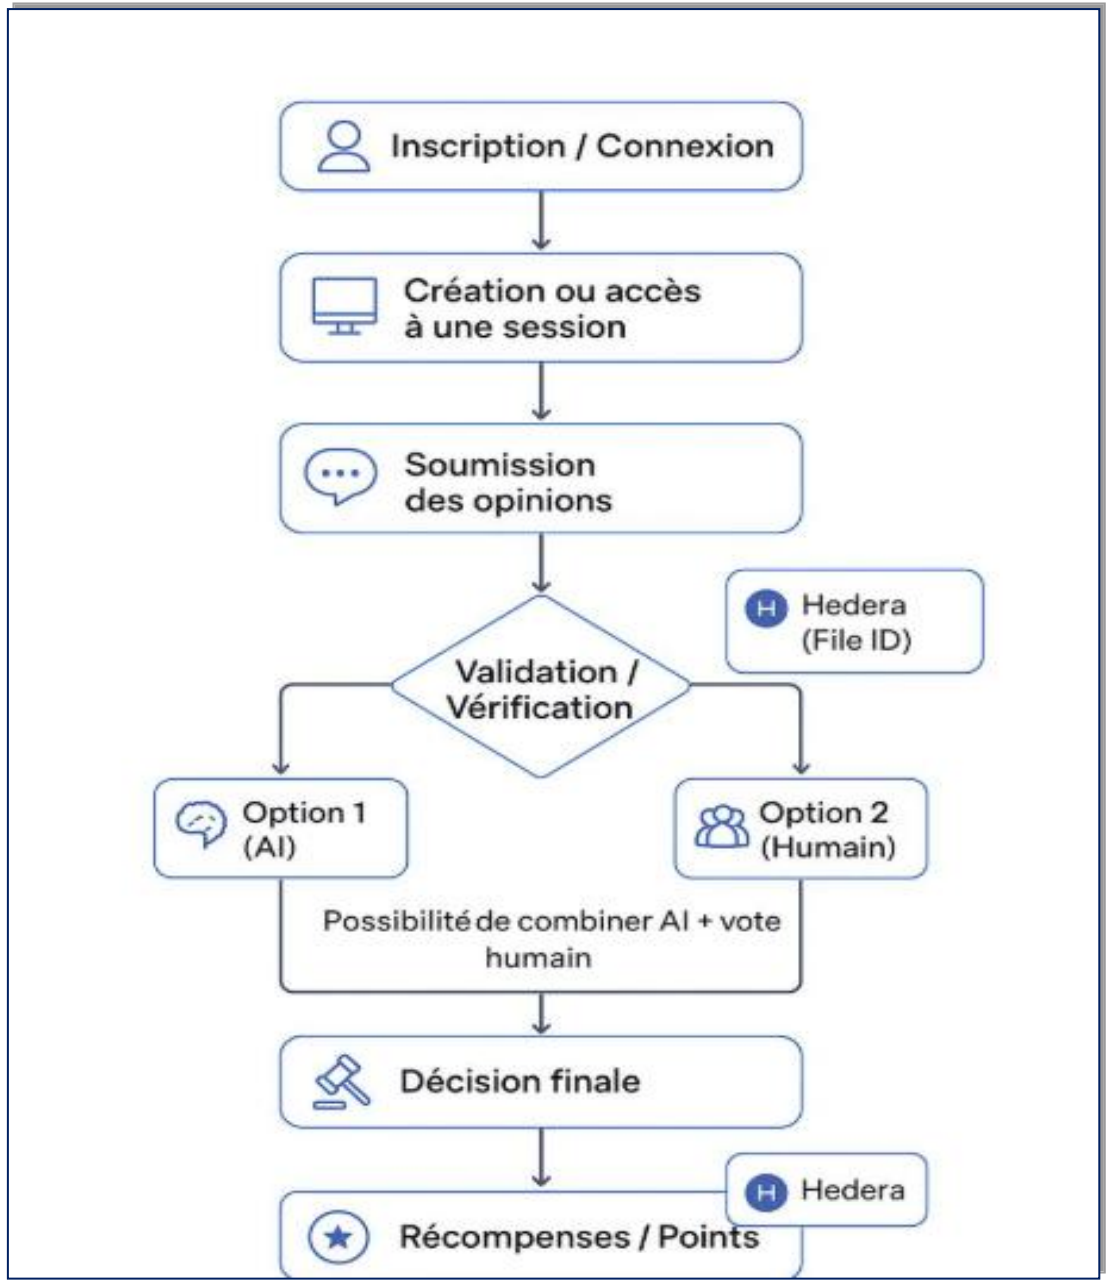
AI-Powered Insights
Use Artificial Intelligence to analyze opinions and generate clear and unbiased decision summaries.

.

Trust & Security Through Blockchain
Ensure data integrity, transparency, and secure authentication for all participants using the Hedera blockchain.

.

Scenario



Inscription / Connexion
Création ou accès à une session
Soumission des opinions
Hedera (File ID)
Validation / Vérification
Option 1 (AI)
Option 2 (Humain)
Possibilité de combiner AI + vote humain
Décision finale
Hedera
Récompenses / Points

Business model

Key Partners

- Municipalities and local authorities
- Companies and organizations
- AI/Blockchain developers
- Cloud service providers

Key Activities

- App development & maintenance (web + mobile)
- Voting algorithms, data analysis, blockchain security
- Marketing & user awareness campaigns

Value Proposition

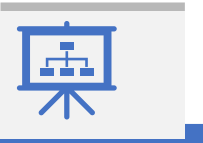
- Transparent & reliable decision-making
- Increased participant engagement
- Real-time vote tracking & visualization
- Reduced conflicts & errors in decisions

Customer Segments

- Public organizations (cities, municipalities)
- Private companies
- Associations & NGOs
- Online communities & collaborative groups

Cost Structure

- Software development & updates
- Cloud infrastructure & blockchain security
- Marketing & communication
- Technical support & training



Revenue Streams

- Subscriptions (monthly/annual)
- Premium services (analytics, reports)
- Commission on participation or extra features
- Partnerships & grants for public/NGO projects

Conclusion

SmartDecide is a simple, secure, and interactive solution for transparent, fair, and efficient group decision-making.
